## THE IMMIGRATION BILL

MR. SHATTUC'S MEASURE IS  
PASSED BY THE HOUSE OF  
REPRESENTATIVES.

### TO COMBINE LEGISLATION

All the Scattered Laws on the Subject  
Are Brought Together Into One Act  
A Number of Important Changes  
and Additions Are Also Made in the  
Provisions of the Present Statutes  
Senate Discusses Philippine Bill.

Washington, May 28.—The house has passed the Shattuc immigration bill. The feature of the day was a lively debate on the question of prohibiting the sale of intoxicating liquors at immigrant stations. It was precipitated by an amendment offered by Mr. Bowersock (Kan.) to prohibit such sale, which was carried, 83 to 18. Mr. Landis (Ind.) followed this victory with an amendment to prohibit the sale of intoxicants in the Capitol and it prevailed by a still larger majority, 108 to 19. The bill brings together into one act all the scattered legislation heretofore enacted in regard to the immigration of aliens into the United States, arranged in sequence, etc., eliminates what has become obsolete by reason of subsequent legislation, amends some of the administrative features and also adds some provisions to the general laws and others made necessary by the extension of the territorial limits of the United States. Among the more important changes are those increasing the head tax on aliens coming into the United States by land transportation from \$1 to \$1.50, adding to the excluded class epileptics, persons who have been insane within five years, anarchists or persons who advocate the overthrow of government by force, prostitutes and procurers (whose importation is now a felony, but whose entry is not prohibited), broadening the word "contract" in the contract labor law to include "offer, solicitation or promise;" providing for the fine of steamship companies which receive at the port of departure aliens afflicted with loathsome or contagious diseases instead of providing as now for their deportation on arrival here; extending the time within which an alien who becomes a public charge may be deported from one to two years, and providing that immigrants over 15 years old should be able to read in some language. Just before the session closed a special rule was presented to make the bill for coining subsidiary silver a continuing order until disposed of.

### SOME DAY NEXT WEEK.

Senate Will Then Probably Dispose of  
the Philippine Bill.

Washington, May 28.—A fruitless effort was made just before the adjournment of the senate to secure an agreement on a time for a vote on the Philippine bill. The discussion indicated that some day next week eventually would be agreed upon, but no time was fixed. During the discussion a proposition was made that a time be fixed on alternate Tuesdays, beginning next week, for a vote on the Philippine bill, the Nicaragua canal bill and the Cuban reciprocity bill, and that a final adjournment be agreed on for the fourth Tuesday; but it was too startling to be taken seriously, although some senators regarded it favorably.

For several hours Mr. Patterson of Colorado discussed the Philippine question, concluding his speech. After reviewing and commenting on the general Philippine question he attacked the pending bill, particularly its provisions regarding the holding of lands. He declared that it was monstrous and never should be enacted into law. He urged that the Filipinos be granted their independence and drew an eloquent word picture of the turning over to the Filipinos by the United States of the islands when they had established a government.

Early in the session a committee was appointed by the senate to confer with a like committee of the house about the disagreement which has arisen between the two houses as to the army appropriation bill.

### ONE DEAD, A HUNDRED HURT.

Sidewalk Loaded With People Col-  
lapses in New York.

New York, May 28.—Elvin L. Coolidge, circulation manager of the New York Commercial, was almost instantly killed and about 100 others injured by the breaking down of a temporary sidewalk at Fifth avenue and Eighteenth street. Some of those injured may die.

Those who fell were part of the crowd gathered to watch the parade of militia in honor of the visit of the French Rochambeau commission to this city. Two hundred persons were on the sidewalk when it gave way. They were precipitated 20 feet into an excavation for a new building and fell on piles of building material.

Considering the nature of the accident and the number of persons in it the hospital surgeons express surprise at the few who received serious hurts.

### THE OUTLOOK IS BRIGHT.

British Hopeful of Peace as Result of  
Negotiations.

London, May 28.—The British cabinet was in session for two hours during the day, discussing the communications received from Pretoria since the meeting of the ministers on Friday last. It is understood that the inner committee of the cabinet will telegraph the result of the deliberations to Pretoria during the afternoon.

The Boer delegates at the Transvaal capital will then probably return to Vereeniging and report to the burghers who are still assembled there.

According to the views of officials here there is nothing to warrant the pessimistic opinions expressed in some quarters regarding the ultimate outcome of the discussions at Pretoria and Vereeniging.

The Associated Press learns that the government continues to be satisfied that the negotiations will result in a peaceful settlement. Some minor points are still being discussed but these are expected to be fully disposed of within a day or two.

A. J. Balfour, the government leader, made no statement in the house of commons regarding the peace negotiations, but he announced a postponement of the discussion of the budget, fixed for this week, remarking that it would be very inconvenient to debate the budget "while there were other things in the balance."

He subsequently explained that it would be impossible, in discussing the budget, to prevent references to the peace negotiations.

### FIRST MINISTER TO CUBA.

Herbert G. Squiers of the United  
States Presents His Credentials.

Havana, May 28.—Herbert G. Squiers, the first minister of the United States to Cuba, has been formally received by the Cuban government. The ceremony, which was held at the palace, partook of all the official regalia that the young republic could muster.

Mr. Squiers, who was accompanied by the assistant secretary of state, was escorted from his hotel by a squad of the mounted rural guard. A company of Cuban soldiers, who were lined up in front of the palace, saluted Mr. Squiers as he entered the building. The American minister was announced in a loud voice. President Palma received him in the parlor of the palace with the Cuban cabinet. Mr. Squiers presented his credentials and then made a short address in which he conveyed the compliments of President Roosevelt to President Palma. He said his work would be in the direction of drawing closer the ties of friendship between Cuba and the United States.

Replying to Mr. Squiers, President Palma said: "I am faithfully interpreting the sentiments of the people of Cuba when I assure your illustrious president through you that our most ardent desires are for the happiness and prosperity of the American people and their worthy president."

President Palma expressed also his satisfaction at the appointment of Mr. Squiers as United States minister. Mr. Squiers is the first minister to present his credentials to the Cuban government and he will be dean of the diplomatic corps in Havana.

### ADING THE SUGAR TRUST.

Charge Made Against Several Western  
Railroads.

Chicago, May 28.—Some of the Western railroads are accused of helping the American Sugar Refining company, commonly called the sugar trust, in its effort to kill the beet sugar industry in Nebraska and Colorado, says The Inter-Ocean.

The Rock Island, Missouri Pacific and the Missouri, Kansas and Texas railroads have joined the Mallory Steamship line in making a through rate of 33 cents per 100 pounds on sugar from New York, via Galveston, to Kansas City, St. Joseph, Omaha and Lincoln, Neb. On this rate the so-called sugar trust has just shipped into Missouri river territory 200 carloads of sugar, aggregating 5,000,000 pounds. The result is that this sugar is put in that market at a lower figure than the beet sugar growers of Nebraska and Colorado can meet and realize any profit.

### PROOF OF AN AGREEMENT.

Former Employee of Beef Combine on  
the Stand.

Albany, N. Y., May 28.—The hearing into the operation of the alleged beef combine was continued during the day before Former Justice Judson S. Landon as referee. The first witness was William N. Coffey of Troy. He testified that he was formerly employed by the Western packing houses to represent them in Troy and to furnish them weekly with a list of the retail meat dealers in his territory who failed to pay their bills for meat delivered each week. The object of this, he said, was to compel butchers who were slow in paying for goods delivered to pay cash for their meat until such time as they agreed to settle their accounts weekly. He said that he had been notified last week that there was no longer any need for his services as the working agreement between the packing houses was no longer in force.

### Hanna Has Nothing to Say.

Cleveland, May 28.—Senator Hanna, when seen relative to a proposed meeting of the Civic Federation in Chicago, as stated in a news dispatch from the latter city, stated that he knew absolutely nothing of the matter. He declined to say whether or not he had any further plans in connection with his efforts to secure a settlement of the anthracite coal strike.

### EMBARGO ABOUT COMPLETE

Big Packers Fail in Every Attempt to

Smuggle Out Meat and the Butchers

Are Forbidden to Haul Away Any

Provisions—A Movement on Foot

for the Retailers to Close Their

Shops.

Chicago, May 28.—Chicago's beef supply from the stock yards has been almost entirely cut off and unless the concessions demanded by the striking teamsters are granted within the next day or two the city will be face to face with a famine. The situation is growing more alarming with the passing of each day.

Not only have the big packers failed in every attempt to smuggle meat out of the yards, but the wholesale and retail butchers, who usually drive their own wagons into the yards and take out loads of provisions, have been forbidden to do so in the future. A number of them were allowed to carry away stuff that they had bought of the packers, but they were warned not to return for any more until the trouble is settled.

As a result there is a movement on foot among the 1,200 or more butchers of Chicago to close their shops for a week or two, or as long as may be necessary to defeat the packers in their fight against the teamsters. Most of them declare that they are in sympathy with the strikers and feel that stopping the sale of beef would be the most effective way to help the teamsters.

No unions have yet declared a sympathetic strike, but many individual members have been doing all in their power to aid the teamsters, and if the present situation continues much longer, it is asserted in union circles, that other locals, such as the ice and coal men, may join the teamsters.

Fix of the smaller firms have met the demands of the strikers and signed the new scale, but the big concerns are still defiant.

### AFTER INVESTMENT PEOPLE.

Thirty-six Bills Found by a Kentucky  
Grand Jury.

Louisville, May 28.—The special grand jury in Fayette county has adjourned, after returning 36 indictments against persons connected with investment companies. The indictments embrace about 50 people, some of them being indicted jointly and others separately. Most of the indictments charge embezzlement.

### "Lexowed" Police Officer Dead.

New York, May 28.—James H. Burns, for 15 years a ward detective on the New York police force, is dead at his home in New Rochelle, leaving an estate said to be worth \$300,000. Burns was detailed at the Eldridge street station but after the Lexow investigation was placed on trial and dismissed from the force. He was also indicted, but when the trial was called his bond of \$500,000 was forfeited.

### To Avoid an Epidemic.

Paris, May 28.—In order to avoid a possible epidemic among the 7,000 refugees now at Fort de France it has been decided to distribute them among a number of depots.

### UNANIMOUS FOR A STRIKE.

Colliery Firemen at Shamokin, Pa.,  
Vote on the Question.

Shamokin, Pa., May 28.—The joint vote of 100 colliery firemen taken at a meeting was unanimously in favor of a strike in case the 8-hour workday was not granted by next Monday. Local No. 47 of the International Steam Engineers also balloted and decided to engage in a tie-up June 2 providing the same concessions demanded by the firemen are not granted. After the meeting the engineers stated they were not responsible for certain unorganized engineers voting last Sunday not to strike even if the 8-hour workday was not granted.

Wilkesbarre, Pa., May 28.—At a meeting of the engineers, firemen and pumpmen of the Temple, Lehigh Valley and Erie Coal companies at Pittston it was agreed by a vote of 62 to 50 to join the strikers on Monday.

Twenty-five repairmen quit work at the Woodward mine of the Delaware, Lackawanna and Western company during the afternoon.

### WILL NEVER BE RECOVERED.

Miners at Fernie, B. C., Buried Under  
Many Tons of Wreckage.

Fernie, B. C., May 28.—The explosion which killed 151 men occurred in one of the lowest workings, known as Beaver pit. The wreck of the workings is said to be complete. Hundreds of tons of rock and coal were brought down upon the unfortunate miners by the force of the explosion. Some of the bodies are buried beneath from 50 to 75 tons of debris and many corpses will never be recovered. Eight more bodies were recovered during the day. Many of the surviving white miners are arranging to leave Fernie.

A threatened rising against certain government officers was checked by the arrival of a large number of special officers who had been hurriedly summoned by telegraph from all the nearby towns.

### CHINA'S REBELLION.

Government Troops Rout Insurgents,  
Killing 1,500.

London, May 28.—Cabling from Shanghai, the correspondent of The Daily Mail says the Southern rebellion is in full activity and that a severe battle has been fought at Shu Luh Sien, in which the rebels were defeated by the government forces with losses amounting to 1,500 men in killed or wounded. The government troops pursued the rebels to their entrenched villages and cut off their supplies. The insurgents, who include boys and women, made desperate sorties from the villages and forced the government troops to retreat. The rebel leader Ching Ting Pin, was killed.

The rebels are increasing in strength and Boxers are gathering in large numbers in Shang Tung province.

### No Agreement Reached.

Washington, May 28.—The Republican members of the committee on relations with Cuba held a meeting during the day but reached no definite agreement. Members of the committee say they believe an agreement will be reached before the end of the week and expect to report a measure upon which a majority of the Republicans of the senate will unite.

### Minnesota District Attorney.

Washington, May 28.—The president has sent to the senate the nomination of Charles C. Haupt to be United States attorney for the district of Minnesota.

Shamokin, Pa., May 28.—The joint vote of 100 colliery firemen taken at a meeting was unanimously in favor of a strike in case the 8-hour workday was not granted by next Monday. Local No. 47 of the International Steam Engineers also balloted and decided to engage in a tie-up June 2 provided the same concessions demanded by the firemen are not granted. After the meeting the engineers stated they were not responsible for certain unorganized engineers voting last Sunday not to strike even if the 8-hour workday was not granted.

Wilkesbarre, Pa., May 28.—At a meeting of the engineers, firemen and pumpmen of the Temple, Lehigh Valley and Erie Coal companies at Pittston it was agreed by a vote of 62 to 50 to join the strikers on Monday.

Twenty-five repairmen quit work at the Woodward mine of the Delaware, Lackawanna and Western company during the afternoon.

### WILL NEVER BE RECOVERED.

Miners at Fernie, B. C., Buried Under  
Many Tons of Wreckage.

Fernie, B. C., May 28.—The explosion which killed 151 men occurred in one of the lowest workings, known as Heaver pit. The wreck of the workings is said to be complete. Hundreds of tons of rock and coal were brought down upon the unfortunate miners by the force of the explosion. Some of the bodies are buried beneath from 50 to 75 tons of debris and many corpses will never be recovered. Eight more bodies were recovered during the day. Many of the surviving white miners are arranging to leave Fernie.

A threatened rising against certain government officers was checked by the arrival of a large number of special officers who had been hurriedly summoned by telegraph from all the nearby towns.

### CHINA'S REBELLION.

Government Troops Rout Insurgents,  
Killing 1,500.

London, May 28.—Cabling from Shanghai, the correspondent of The Daily Mail says the Southern rebellion is in full activity and that a severe battle has been fought at Shu Luh Sien, in which the rebels were defeated by the government forces with losses amounting to 1,500 men in killed or wounded. The government troops pursued the rebels to their entrenched villages and cut off their supplies. The insurgents, who include boys and women, made desperate sorties from the villages and forced the government troops to retreat. The rebel leader Ching Ting Pin, was killed.

The rebels are increasing in strength and Boxers are gathering in large numbers in Shang Tung province.

### No Agreement Reached.

Washington, May 28.—The Republican members of the committee on relations with Cuba held a meeting during the day but reached no definite agreement. Members of the committee say they believe an agreement will be reached before the end of the week and expect to report a measure upon which a majority of the Republicans of the senate will unite.

### Minnesota District Attorney.

Washington, May 28.—The president has sent to the senate the nomination of Charles C. Haupt to be United States attorney for the district of Minnesota.

### A Delicate Point.

"It seems to make Scaddington's wife as mad as a hornet every time he boasts that he began at the foot and worked his way up."

## Bison Causes Panic.

A panic was created at Norris & Rowe's animal circus last night by the escape of the bison. It broke away from its keeper just after the close of the performance, and before all the crowd had left the grounds at Thirteenth avenue east and Superior street. It plunged out into the street, passing near a group of women and children who were waiting for a car, and caused them to flee for their safety.

The animal disappeared to the east, and the entire male force of the show company was sent out in a search. The eastern part of the city and the lower hills were covered, but to no avail. It is thought the animal has disappeared over the hill and entered the timber. The search will be renewed with determination this morning. The fact that the wild beast is considered dangerous has caused considerable apprehension.—Duluth Herald.

## JUDD WRIGHT AS SUPERINTENDENT

For the Minnesota Water Works Company in this City Succeeding J. R. Smith.

## LONG SERVICE WITH THE N. P.

Mr. Wright will Take Charge First of June—Resigned Position with N. P.

It will be quite a surprise to many in this city to learn that Alderman Judd Wright has resigned his position at the store keepers office of the Northern Pacific in this city, and that he severed his relations with the company yesterday.

Mr. Wright resigned his position with the Northern Pacific to accept the superintendency of the Minnesota Water Works company in this city, succeeding J. R. Smith, the present superintendent. Mr. Smith seen this morning stated that President Tighe notified him that he had decided to put a man in this position that would give the business of the company his entire attention, which Mr. Smith could and would not do, and that he engaged Mr. Wright and he would assume charge the first of the month.

It is not known positively yet whether Mr. Wright will resign as alderman from the second ward, but it is presumed that he will. This move seems to those who have kept close tab on the affairs of the city an odd one as Mr. Wright has been about the most strenuous of all the aldermen in fighting for the rights of the city as against those of the company.

Mr. Wright has been with the Northern Pacific for upwards of twenty years and has many friends in and around the institution who will regret to regret to see him go.

Supt. Smith had little to say regarding the matter. He said that the notice came rather sudden to him, altogether too sudden, although he considered it a thankless job and will be glad to get out of it and devote his time to his real estate and insurance business.

## The Chinese Bride Wears Red.

Red is the nuptial color in China. The coolies that carry the bride in her litter are dressed in red, and they bear a dwarf orange tree loaded with fruit and cola. The bride's compartments are finished in red trimmings, the banners borne in the procession are originally crimson, which are brightened by the rosy glow of the lanterns. Red umbrellas are carried, and illuminated signs blaze in color. The canopy itself is decorated according to the wealth and the taste of the bride's family. A poor woman is carried to her wedding feast in a plain chair painted red. If the family has wealth or rank, the palanquin is very ornate, decorated with dragon heads. The Chinese skill in working silk or gold cord is displayed in an artistic manner. When the bride appears, she wears a red veil, and the letters to her ancestors, whose blessing is invoked, are written on red paper. The bride generally wears a crown adorned with tinsel and mock jewels, an idea which is much more prevalent in Sweden.—Woman's Home Companion.

## A Military Order In Emergency.

Captain Verne M. Bouvie, who raised and commanded a company in an Ohio regiment in the Spanish-American war, told of a very unusual order he heard given by an officer of a Missouri regiment at Camp Meade. "The Missourian's company was coming down a muddy road," said Captain Bouvie, "and presently they came to a place where only two abreast could pass. The company was in a column of fours, and the problem of getting them past puzzled their commander completely. The correct order was 'Right, by twos.' After some hesitation he shouted peremptorily: "'Gee round that puddle!' "The company had evidently been better drilled than their commander, for they broke into a column of twos. When they had passed the water, I listened eagerly for the next command. After some delay the officer shouted sharply: "'Twos inter fours, right smart; git!'"

## An Expressive Postscript.

A curious postscript was once added to a letter by General Israel Putnam. A spy named Palmer, sent by Sir Henry Clinton, the British commander, had been detected furtively collecting information of the force and condition of the post at Peekskill and had undergone a military trial. A vessel of war came up the Hudson in all haste and landed a flag of truce at Verplanck's point, by which a message was transmitted to Putnam from Clinton claiming the said Palmer as a lieutenant in the British service. Putnam replied:

Headquarters, Aug. 7, 1777. Edward Palmer, an officer in the enemy's service, was taken as a spy lurking within our lines. He has been tried as a spy and shall be executed as a spy, and the flag is ordered to depart immediately. ISRAEL PUTNAM. P. S.—He has accordingly been executed.

## His Wits Were Woolgathering.

The absentminded professor, says the Norwegian Weekly Tyllians, suddenly arose from his rocking chair, pushed his spectacles up on his forehead and went toward his wife with the expression and air of a man who at last had come to a final decision. "Now, listen to me, wife," he said, "and I do not want you to oppose me, do you hear?" "Yes, dear. What is it, then?" "Now, no opposition, mind. I wish the boy to be an engineer." "But, my dear, what are you talking about? We haven't any boy." "Oh, yes, that is so. I had forgotten that," said the professor as he resumed his seat in the rocking chair.

## A Quick Cure For Bee Stings.

First pull the sting from the flesh, then bruise the fresh leaves of the common weed known as vervain and rub the wound well with them, after which bind it to a plaster of the crushed leaves well moistened. This will prevent swelling and ease the pain. Vervain may be used in its dried state by steeping the leaves in hot water. It is gathered in September by negro nurses in the south and hung up to dry for winter use.—Ladies' Home Journal.

## A Thief, but No Liar.

Magistrate (to new policeman)—Did you notice no suspicious character about the neighborhood? New Policeman—Shure, yer honor. I saw but one man, an' I asked him what he was doin' there at that time o' night. Sez he, "I have no business here just now, but I expect to open a jewelry store in the vicinity later on." At that I sez, "I wish you success, sor."

Magistrate (disgusted)—Yes, and he did open a jewelry store in the vicinity later on and stole seventeen watches.

New Policeman (after a pause)—Begorra, yer honor, the man may have been a thafe, but he was no liar.—London Answers.

## CONFERENCE IS INTERESTING

Address by A. Milne, of Duluth, Last Night was Scholarly and Interesting.

### REV. MICHAELS IS MODERATOR.

Reports From the Different Congregational Churches Show Substantial Growth.

The meeting of the Duluth conference of the Congregational churches convened again today at the Peoples' church in East Brainerd. Last night the sermon delivered by Rev. Alexander Milne, of Duluth, on "The Authority of Christ," was a very scholarly effort and pointed out the certainty of the final triumphs of Christianity over all other religious systems, Christ being the supreme teacher of mankind. The sermon was followed by a very impressive communion service led by Revs. R. P. Herrick and M. L. Hutton.

This morning after devotional services and miscellaneous business Rev. W. E. Griffith, of Aitkin, read a paper on the "Needs and Benefits of the Fellowship of Churches." The paper was interesting and suggestive and was followed by quite a lively discussion, in which it was generally thought that there was great need of a closer fellowship. Rev. George Michaels, of Walker, gave a paper on "A City Without a Church." It was along a humorous line and yet it was very forceful and pointed out the fact that in many towns Christianity suffered because of the intense sectarian bigotry of church people. The paper was a plea for closer cooperation of all churches.

This afternoon the time was devoted to the subject of missions, home and foreign.

Tonight at 7:45 there will be a song service and at 8 o'clock addresses on "Home Missions" by Rev. G. R. Merrill, of Minneapolis and Rev. M. L. Hutton, of the First Congregational church of this city.

### YESTERDAY AFTERNOON'S SESSION.

The roll call and organization was the first order of business yesterday afternoon. Rev. George Michaels, of Walker, was elected moderator and Rev. W. E. Griffith, of Aitkin, was elected secretary. Rev. Alexander Milne, of Duluth, was elected registrar.

There were reports read yesterday afternoon from all the churches. Most of these reported substantial improvements and increase of membership.

### Free Public Libraries.

It may not be known to many people in Minnesota that a free library may be had for the asking by applying to the Minnesota State Library Commission. This commission was established by the legislature in 1899, and a system of free traveling libraries was begun in January, 1900, as soon as funds were available. Libraries have been added from year to year, until there are now 200 in circulation. A traveling library contains 25 or 50 carefully selected books packed in a neat case, with blanks, catalogs and necessary directions for the circulation of the books. A library will be loaned to any village, town or community upon application of at least 10 resident taxpayers, who will form a local library association and agree to be responsible for the proper care of the library. A fee of \$1.00 for 50 books and 50 cents for 25 books is charged for each library to cover cost of transportation both ways. The books may be retained six months, but will be exchanged oftener if desired. The traveling libraries are especially designed for the use of farming communities and small villages which cannot support a local public library. They are also of great service to small public libraries which cannot have frequent accessions of new books. They should also serve as an incentive to the establishment of libraries in small villages and towns.

The appropriation for the year 1902-3 will be available August 1st, and new libraries will be ready for circulation in the fall. Those wishing to take advantage of this splendid opportunity to get the best books free of cost should make application as soon as possible to Miss Gratia Countryman, secretary of the Minnesota State Library Commission, Public Library, Minneapolis, who will furnish application blanks and full information.

## N. C. JENSON BADLY INJURED

While on His way to Work at the M. & I. Shops he is Run Down By No. 8.

This morning N. C. Jenson, who is a blacksmith helper at the M. & I. shops, while on his way to work was overtaken by No. 8 when on the bridge that crosses the Mississippi near the mills, and was thrown headlong into the river, and the wonder is that he was not killed outright. Luckily, however, he struck the jam of logs below on his side and thus saved himself considerably. He was picked up and taken to the Northern Pacific Sanitarium. It was found that his arm was broken and his body was otherwise badly bruised. Unless internal complications set in it is thought that he will pull out all right.

### MR. KENDRICK'S MOVEMENTS.

Reports that He Will Resign From the Santa Fe, being Circulated.

The St. Paul Dispatch says that J. W. Kendrick, third vice president of the Santa Fe, and for many years second vice president and general manager of the Northern Pacific, is in Europe where he has been for nearly four weeks.

During Mr. Kendrick's absence rumor has been busy with his name, and it is not unlikely that on his return, two weeks hence, that he will announce his resignation from his present position with the Santa Fe.

The corporation which is said to have sought Mr. Kendrick's valuable services is one of the largest manufacturing concerns in America.

## JUDGE McCLENAHAN HAS NOT BEEN SEEN

Regarding Filings and Use of His Name in Re Sections 16 and 36.

### WORKING UNDER U.S. STATUTES

Making the Judge of the County Court Trustee Representing the Settlers.

Judge McClenahan rather smiled when he read the newspaper reports which drew him into a controversy over Sections 16 and 36 in various towns in the state on Indian reservations, which were held by the supreme court to belong to the government and not the state and therefore open to entry, and for a time he could not understand the matter.

This morning however, he began to think over the question. He thought there must be some legal question why he was drawn into the matter, as he had not even been approached regarding the matter and has not been seen by any of those interested.

He this morning found a section in the United States revised statutes which he thinks those interested worked under. The section states that whenever any portion of the public lands have been or may be settled upon and occupied as a town-site not subject to entry under the pre-emption laws, it is lawful in each case, in such towns as may be incorporated for the corporate authorities thereof, and if the same is not incorporated, for the judge of the county court in which such town-site is situated, to make entries at the proper land office, and the same may be held in trust for the several parties for their use and benefit. Then the statute goes on and states how this trust is to be executed.

Judge McClenahan has no doubt now but that those interested are operating under this law.

## MUSIC AND DRAMA.

### "THE MISSOURI GIRL."

One of the most pretentious attractions which will be seen in Brainerd this season, is Fred Raymond's famous comedy, "The Missouri Girl," which will be presented at Brainerd Opera House tomorrow night.

It is one of the most unique comedies ever brought to our city. It fairly bubbles over with fun, from beginning to end and affords an evening of rare amusement. Mr. Raymond presents some stage characters that are entirely different from those seen in other dramatic or comedy productions. He has not resorted to low, vulgar "gags," the comedy being clean, refined and at the same time execrably funny. A number of original ideas are brought out in such a clever manner as to bring forth an immense amount of laughter and applause. Prices 75c, 50c, and 25c.

### LEWIS MORRISON'S "FAUST."

Unusual interest attaches to the forthcoming production of Lewis Morrison's new "Faust" from the fact that Lewis Morrison has equipped the play with superb new scenery and made the tragedy of Faust and Marguerite doubly attractive by a large expenditure of money for scenery and electrical effects.

## A WORD TO THE WISE

There is not another town in the state of Minnesota with one-half the population of Brainerd, where real estate is not selling for double what it is here, this condition will soon be reversed and lots will double and treble in price. Now is the time to buy; any one of good judgment can readily see that the above statements are true, building materials are advancing all the time, and it is therefore manifest that homes bought now will be worth considerable more in a year; buy now and get the benefit instead of waiting and get left. I can now show some good bargains in nice homes. Easy terms.

## ON THE DIAMOND.

The game to be played Friday afternoon, Decoration day, at the Brainerd Athletic Park will be one of the finest exhibitions that will be seen in this city this summer. The grounds will be played on for the first time that day, and all Brainerd should turn out to see the game. The locals will put up a fierce game. The line-up will be the best that the management has had thus far this summer. It is as follows: Englebreton, c; Williams, 1b; McCarthy, 2b; Howe, 3b; Flynn, ss; Merrill, 1f; Murphy, cf; Finn, rf. Either Orth or Boyle will be on the slab for the locals. The game will be called at 3:30 o'clock.

In casting about for a name for the new base ball park it was decided last night to call it the "Brainerd Athletic Park." In referring to this park in the future this name will be used.

Then the statute goes on and states how this trust is to be executed. Judge McClenahan has no doubt now but that those interested are operating under this law.

It is one of the most unique comedies ever brought to our city. It fairly bubbles over with fun, from beginning to end and affords an evening of rare amusement. Mr. Raymond presents some stage characters that are entirely different from those seen in other dramatic or comedy productions. He has not resorted to low, vulgar "gags," the comedy being clean, refined and at the same time exuberantly funny. A number of original ideas are brought out in such a clever manner as to bring forth an immense amount of laughter and applause. Prices 75c, 50c, and 25c.

### LEWIS MORRISON'S "FAUST."

Unusual interest attaches to the forthcoming production of Lewis Morrison's new "Faust" from the fact that Lewis Morrison has equipped the play with superb new scenery and made the tragedy of Faust and Marguerite doubly attractive by a large expenditure of money for scenery and electrical effects.

## INVESTIGATION ASKED

INDEPENDENT DEALERS FILE  
CHARGES AGAINST ELEC-  
TRICAL TRUST.

### SAY A CONSPIRACY EXISTS

Men Who Sign the Statement Send an  
Offer to the President to Furnish  
Evidence in Support of Their Al-  
legations and Will Appear as Wit-  
nesses for the Government if Court  
Proceedings Are Authorized.

Chicago, May 28.—A communication was sent to President Roosevelt by independent electrical supply dealers specifying charges against the National Electrical Supply Dealers' association and requesting that he direct the attorney general of the United States to seek for evidence in Chicago preparatory to prosecution of the officers and members as parties to an alleged illegal trust. The men who sign the statement sent the president an offer to furnish evidence in support of their charges, and, if court proceedings are authorized, to appear as witnesses for the government. The communication charges that officers of the association have conspired with the National Electrical Manufacturers' association and among themselves to drive out of business, exterminate and crush out all independent electrical supply manufacturers and dealers in the United States. Such a conspiracy, it is claimed, has been in existence for the last two years and its purpose has been to create an electrical supply trust contrary to the statutes of the United States. The officers and members of the supply trust, it is charged, have blacklisted, boycotted and illegally attacked independent supply dealers; they have imposed fines on membership for selling to independent dealers; they have employed spotters and spies to destroy trade rivals; they have increased the cost of electrical supplies to the public 65 to 100 per cent and far beyond that the actual value of such supplies justify; they have employed arbitrators and supervisors and have raised and lowered prices without regard to natural conditions.

The appeal in conclusion says: "We offer to present to you and to the attorney general of the United States the names of the officers and members of this trust; reports of the secret spy to spydox James up to spydox secret prices and instruction lists; orders to blacklist and boycott, and such other necessary information as must convince any court that said officers and members are not only subject to civil prosecution, but should be indicted and criminally prosecuted."

### WRECK ON THE WEST PENN.

Engineer and Fireman Die in a Terrible Manner.

Blairsville, Pa., May 28.—One of the worst wrecks in the history of the West Penn railroad occurred at a point called Porters curve. Engineer James Couch and Fireman J. E. James were killed and Conductor Grant Gibson badly injured. The engine was entirely wrecked and four freight cars, loaded with valuable freight, together with a cabin car, were a total wreck. The track was torn up for a distance of several hundred yards.

Engineer Couch was pinned underneath the wreckage and his body was horribly mangled. Fireman James was thrown in such a position that he was forced to inhale the scalding steam which was escaping from a number of broken steam pipes in the cab of the engine. His shrieks and cries for help while pinned under the engine were terrible and he finally begged some of the men to put him out of his misery. The wreck was caused by the engine being derailed on the curve by a flange on one of the wheels breaking.

### DEATHS DUE TO JEALOUSY.

Three Lives Sacrificed Because of Kansas City Man's Infatuation.

Kansas City, May 28.—Frank Robinson, aged 20 years, shot and killed his sweetheart, Gertrude Rawlins, aged 16 years, shot and fatally wounded his rival, Albert H. Ferguson, aged 19 years, and shot and fatally injured himself in an apartment house in this city.

Shortly before the tragedy was committed, Robinson wrote a note to his mother in which he said that as Ferguson had supplanted him in the affections of the girl he loved, he proposed to kill them both and then kill himself.

He proceeded to the room where Ferguson and the girl were, and, upon being admitted, drew his revolver and opened fire on the couple.

### Columbia River Steamer Sinks.

Wenatchee, Wash., May 28.—The steamer Camana, wheat laden, was sunk in the Columbia river. L. B. Deval, one of the officers of the boat, was drowned, and it is asserted that a number of persons were injured. At Entiat Rapids, about 20 miles above Wenatchee, the boat got beyond control and struck a rock, tipped over and went down.

### Woman Surveyor General of Logs.

St. Paul, May 28.—Governor Van Sant has appointed Mrs. G. Fred Stevens to the position of surveyor general of logs to fill the unexpired term of her late husband. This is the first time such an office has been held by a woman, but state officials are agreed that it was a gracious thing for the governor to do in making the appointment.

### South Dakota Jail Delivery.

Sturgis, S. D., May 28.—Five men, variously charged with horse stealing, assault with dangerous weapons and burglary, broke out of the Meade county jail here. A posse is in pursuit.

### A PANIC IS FEARED.

Black Clouds From Mont Pelée Rolling Over Fort de France.

Fort de France, Island of Martinique, May 28.—Mont Pelée is again in eruption. Huge, inky black clouds are rolling over Fort de France in great masses, in which there are peculiar lightning flashes. If the demonstration continues a panic is imminent. The inhabitants are flocking into the great square of the town.

A heavy surf has been beating on the shore for the last two hours and an enormous, greyish yellow cloud, at a great height, is dimly visible in the direction of Mont Pelée.

The night is intensely dark and the stars are only faintly visible.

Fort de France is in no danger from the volcano, but there is considerable apprehension of a panic in the night time, should the greyish yellow cloud reach here and the ashes and stones begin to fall.

There are no noises from the volcano at present.

### HEAVY FALL OF ASHES.

Evident That Another Eruption of Mont Pelée Has Occurred.

Roseau, Island of Dominica, B. W. I., May 28.—During the whole night ashes from the volcano on the Island of Martinique fell here in greater quantity than ever experienced since the outbreak of Mont Pelée.

### ARE ALL FOR HANNA.

His Popularity Is the Feature of the Ohio Convention.

Cleveland, May 28.—The feature of the Republican state convention is the unanimity of sentiment in favor of Senator Hanna. He has been the center of interest since his arrival here from Washington last Sunday. The conference of leaders with him continued during the day, but when it came to the meeting of the delegates by congressional districts the sentiment for him was demonstrated in an unprecedented degree. His friends had claimed 18 out of the 21 districts and more than realized their expectations. Interest centered in the selection of the state committee, as the new state central committee will have control next year when members of the legislature are elected who will choose the successor of Hanna in the senate. It is claimed that there was only one anti-Hanna man selected on the new state committee and that he "has been reconciled." The drift of sentiment in all the preliminary meetings was most enthusiastic for the senator and in the convention the delegates would not rest until he got up and showed himself, although he insisted that he would not discuss the issues in advance of the keynote speech of General Grosvenor, who is to be the permanent presiding officer. Besides naming committees no business was transacted at the day's session of the convention.

### IN A DRENCHING RAIN.

French Visitors Review West Point Cadets.

West Point, N. Y., May 28.—Count de Rochambeau and party arrived over the West Shore road at 9 a. m. They were met by the academy board and, headed by a detachment of cavalry, were driven in a pouring rain to the academy, passing the cadets standing at present arms and the band playing national anthems. The party, headed by the count, walked to the parade ground and with the rain still falling in torrents walked around the entire six companies and inspected them. The cadets then passed in review before the visitors.

An athletic exhibition was given in the gymnasium at which Count de Rochambeau congratulated the cadets on their skill. An inspection of the various buildings and departments were made and a photograph of the party was taken on the chapel steps. Before leaving for New York the count addressed the cadets, congratulating them on their fine appearance and soldierly bearing, and saying their country had reason to be proud of their services.

### WHITEMAN'S USUAL LUCK.

Alleged Forger Again Discharged From Custody.

New York, May 28.—Alonzo J. Whiteman, who was arrested here some time ago on a charge of forgery, was discharged from custody during the day. Whiteman was convicted and sentenced to two years and six months' imprisonment. The appellate division of the supreme court reversed the decision of the lower court and ordered a new trial. In its decision the appellate court said:

"The people have failed to introduce evidence tending to establish the guilt of the defendant beyond reasonable doubt. The facts and circumstances are suspicious, but they do not necessarily point to the guilt of the defendant and are not inconsistent with his innocence."

The district attorney recommended that the charge be withdrawn, which was done.

Whiteman was at one time prominent in Minnesota politics.

### Flood Does Immense Damage.

Pueblo, Colo., May 28.—The damage done in this city by the flood of the Fountain river is estimated at \$300,000. The railroads are the principal sufferers. No through trains are run owing to washouts and destruction of bridges. So far as known there has been no loss of life, but some persons are reported to be missing.

### Defaulter Given Ten Years.

Helena, Mont., May 28.—Herbert H. Matteson, the defaulting cashier of the First National bank of Great Falls, who pleaded guilty in the federal court, has been sentenced to 10 years in the penitentiary by Judge Knowles. Matteson's shortage was \$198,000. He lost the money in speculation.

### Snow Falls in the Alleghenies.

Cumberland, Md., May 28.—Snow to the depth of nearly an inch fell at Terra Alta, Berlin and other points in the Alleghenies. Garden truck and other crops were damaged to a considerable extent. A heavy hail storm caused much destruction to crops at and about Grafton, W. Va.

### FOR TRIPLE MURDER.

William Lane, Colored, Executed at Philadelphia.

Philadelphia, May 28.—William Harmon Lane, colored, was hanged at 10:08 a. m.

The crime for which Lane paid the death penalty was particularly atrocious. On the morning of April 1 he shot and killed Ella Jarden, by whom he was employed as a servant, and her two daughters, Madeline, aged 12, and Eloise, aged 7 years. Lane had stolen money from his employer and fearing the consequences of his theft he deliberately shot the woman and younger daughter in an upper room of their home and then called the elder child from the street, where she had been playing, and shot and killed her.

After the shooting Lane escaped to Camden, N. J., but was arrested a few hours later in the railroad station in that city. He confessed his crime and after a formal hearing was sentenced to death. Justice was not delayed in meting out punishment to the negro and in less than two months after the commission of the crime he was executed.

### VICTIM OF CHOLERA.

Chaplain Russell of the Eighth Infantry Dead at Manila.

Manila, May 28.—Captain Charles E. Russell of the Eighth infantry is dead. He was the first officer to die of cholera.

Up to the present, in Manila, there have been 25 cases of cholera and 20 deaths among the Americans, and 13 cases and 10 deaths among the European population. The cholera totals to date are as follows: Manila, 1,165 cases and 925 deaths; provinces, 5,001 cases and 2,878 deaths.

### BOTH BECOME LAWS.

President Signs the Omnibus Claims and Indian Bills.

Washington, May 28.—The cabinet spent much time in discussing two important measures—the Indian appropriation and the omnibus claims bill. Both were found to contain objectionable items, but these, after full discussion, were decided to be of trivial importance compared with the other features of the bill. Both measures were signed by the president.

### Result of Boiler Explosion.

Richmond, Va., May 28.—One dead and five seriously, if not fatally, injured, is the result of a locomotive explosion in Manchester, Va. The accident occurred on the tracks of the Atlantic Coast Line, the engine being attached to train 91, a local freight which left this city at 5:05 a. m. for Rocky Mount, N. C.

### Flames Visible on Martinique.

Castries, Island of St. Lucia, B. W. I., May 28.—Flames were seen on the island of Martinique at frequent intervals during the night. They were visible from the signal station at this port.

### TELEGRAPHIC BREVITIES.

Congressman R. W. Taylor, who was recently renominated from the Eighteenth Ohio district, has decided to decline the nomination.

Congressman H. A. Cooper of Racine has been renominated without opposition by the First district Wisconsin Republican congressional convention.

The senate committee on naval affairs has agreed to report favorably the bill providing for the retirement of Naval Constructor Richmond P. Hobson.
